Subject: case 10525277

Mr., Legaard,

I have found that the deposit statement in this case (page 2 of the specification) does not meet the biological deposit requirement, and needs to be amended to the Spec. or statement in the remarks. The amendment of statement requires the following:

all restrictions imposed by the depositor on the availability to the public of the deposited material will be irrevocably removed upon granting of the patent;

I just talked to your assistant for the details.

I do need the correct deposit statement before I require Patentability Conf for allowing the case.

If you have any question, I can be reached at 571-272-3112.

Thanks.
